

Sterling Highway MP 45-60 Project

Project Number: CFHWY00895/A033032

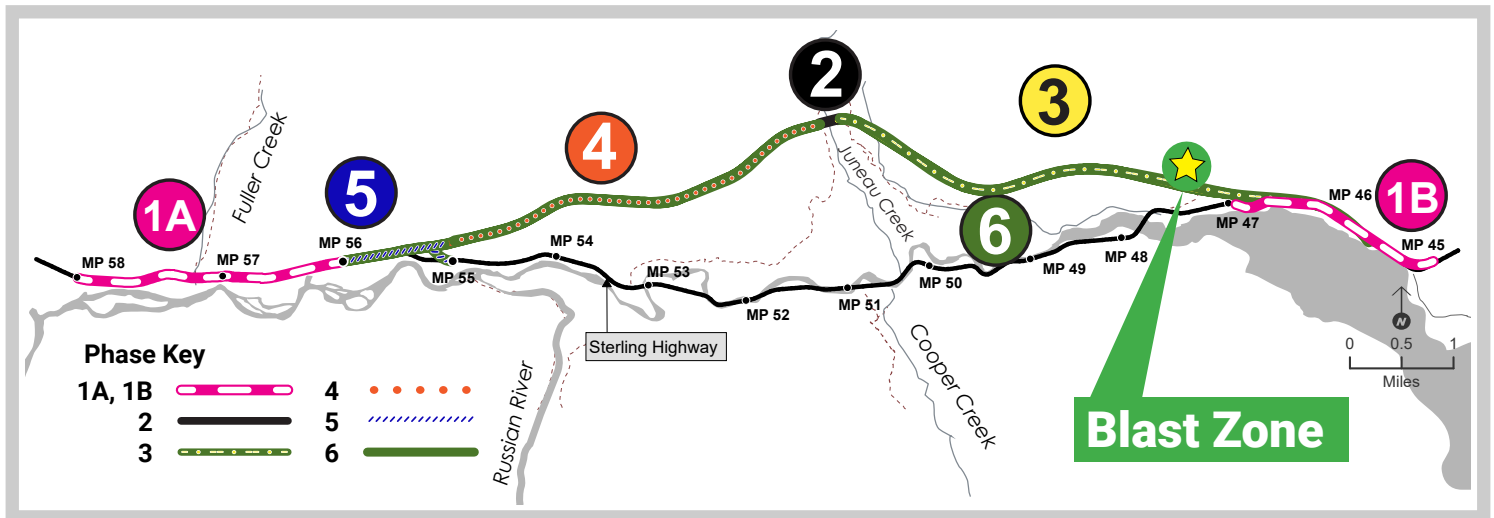

Phase 3 Blasting Operations

June 12, 2023–October 31, 2023

10:00 AM to 8:00 PM

Location: On the east side of the corridor, as noted by the star on the graphic below.

Quality Asphalt Paving (QAP) and Southeast Roadbuilders, in cooperation with DOT&PF, will begin production blasting for Phase 3 on June 12. Blasting will take place on the east side of the corridor, as noted by the star on the graphic below. The blasting operations are anticipated to occur twice a week between the hours of 10 AM and 8 PM from June 12 until October 31. Please be aware that blasting signals may be heard intermittently during this time.

The following blast signals will be sounded on a clearly audible air horn or similar device:

- 1. Blast Warning Signal:** A series of long signals 5 minutes prior to blasting
- 2. Blasting Imminent:** A series of short signals 1 minute prior to the blast
- 3. All-Clear Signal:** One long signal following the inspection of the blast area
